Molasses catcher operation manual

# Killer<sup>M</sup>

A molasses catcher is an accessory that prevents syrup and tobacco leaves from entering the vase from the tobacco cup.

## Killer M

- A clean vase when smoking.
- An increased basin volume to hold even more "escaping" syrup.
- An improved umbrella design to more reliably prevent syrup from entering the stem.
- An updated design to complement the look of any hookah.

## Operating tips

- Before first use, rinse the molasses catcher under running water and check that there are no metal shavings inside.
- Do not use abrasive agents to clean the molasses catcher.
- Check the metal reaction on an inconspicuous area of the accessory before using alkaline and acidic cleaning agents.

### **PLEASE NOTE!**

Killer M with 16x1 thread is suitable for Classic M, Simple M and other hookahs with identical diameter and thread pitch. Killer M with 14x1 threads is suitable for Mini M, Ready S and other hookahs with the identical diameter and thread pitch. If you have made a mistake when choosing a thread, contact our customer service - we will quickly tell you what to do next.

## Warranty

- The warranty period is 1 year.
- To submit a warranty claim, contact the technical support at [mattpear.co](http://mattpear.co) or email [support@mattpear.co](mailto:support@mattpear.co).
- The warranty period starts from the date of purchasing the product only if the seller has filled in the relevant fields of the warranty certificate.
- Delivery is provided at the manufacturer's expense to the carrier nearest to you, provided that a warranty claim has been acknowledged.
- The warranty does not cover mechanical damage or natural wear and tear.

Thank you for your trust in our products -  
it means a lot to us!
